

Three Cosmology Postdoc Positions at the Université Paris-Sud (Orsay)

The Institut d'Astrophysique Spatiale (IAS), the Laboratoire de l'Accélérateur Linéaire (LAL) and the Laboratoire de Physique Théorique (LPT) plan to recruit three postdocs starting Autumn 2006 in preparation for the forthcoming PLANCK data.

Both theoretical candidates, with an expertise in early universe physics and especially the physics of the microwave background, and experimental candidates, with experience in CMB experiments and data analysis, are strongly encouraged to apply.

The postdocs recruited will work on projects relating to the CMB temperature and polarization, component separation, and the theoretical interpretation of the forthcoming data within the PLANCK groups at IAS and LAL and the theoretical cosmology group at LPT.

Specific inquiries about these positions may be addressed to :

- Martin BUCHER (LPT) (bucher@th.u-psud.fr),
- Francois COUCHOT (LAL) (couchot@lal.in2p3.fr),
- Jean-Loup PUGET (IAS) (jean-loup.puget@ias.u-psud.fr).

Applicants should send a cover letter, CV, and statement of research and arrange to have three recommendations letters sent by post or e-mail to :

Mme Mireille CALVET
Bâtiment 210, LPT
Université Paris XI
91405 Orsay Cedex
FRANCE
Mireille.Calvet@th.u-psud.fr.

To receive full consideration, applications and recommendation letters should be received by 31 December 2005. Women and minorities are particularly encouraged to apply.
